

Insurance Services

Insurance is about more than deductibles, depreciation and insured perils. It's about life. Your life, to be exact—and how you'll get it back if something unexpected happens.

At Interior Savings Insurance Services, you'll find experienced, professional advisors who are committed to providing outstanding customer service. We'll take the time to help you determine how much insurance you really need, and explain your policy options. We'll also review the benefits and limitations of any given policy so you'll know exactly what's included and what isn't. What's more, we'll even recommend strategies to help you save—without compromising on coverage.

Whether you're looking to protect your home, your vehicles, your family or your business, we're here for you.

Protect Your Home

Savings and discounts are offered for:

- Being mortgage-free
- Having multiple policies with Interior Savings Insurance Services
- Living in a newer home
- Having a home security system
- Living in a high rise or fire-resistant building (tenants/condo policies)

Protect Your Vehicles

There are lots of places you can purchase Autoplan coverage for your car, truck or SUV, but at Interior Savings Insurance Services, we can help you insure all your rides, including:

- Motorcycles
- Trail bikes
- ATVs
- Motor homes
- Snowmobiles
- Personal watercraft
- Boats

Competitively priced coverage is available for physical damage and third-party liability. Depending on you and your family's needs, you may add additional coverage such as:

- Accident benefits for an owner operator, family member or passenger
- Replacement cost coverage for brand new vehicles and equipment
- Coverage to insure truck decks and dedicated trailers (at no extra cost)

On a budget? Operators who have completed an approved training course, have been claims-free for three consecutive years, or are members of an association may qualify for additional savings.

Protect Yourself (and your family)

Planning a trip outside British Columbia? While a visit to an emergency room may not be on your itinerary, end up there and you may find yourself facing a bill for thousands of dollars—with only a small portion of it covered by the provincial Medical Services Plan.

A travel medical policy takes the stress out of traveling by picking up where your provincial health coverage leaves off. Policies are available for both single and multiple trips. Our insurance advisors can help you determine the option that's best for you. Now you can purchase your travel insurance online when it's convenient for you. To learn more, please visit www.interiorsavings.com/insurance.

Additional options

For flights, prepaid tours and package vacations, a trip cancellation and trip interruption policy is also available. This coverage is designed to help you recoup your investment should you be unable to travel or have to unexpectedly cut your trip short. Finally, baggage insurance can help take the financial sting out of discovering your luggage has been lost or stolen while you're away—and enable you to get out to see the sights with more than just the clothes on your back.

Protect Your Business

Whether you have a farm, a factory or a furniture store, you'll find Interior Savings Insurance Services has competitively priced commercial coverage to fully protect your investment. Property and liability coverage can be tailored for all kinds of businesses including:

- Contractors
- Restaurateurs
- Developers
- Business and professional services providers
- Retailers
- Automotive services providers
- Manufacturers
- Cargo haulers
- Farmers

Our commercial insurance advisors are experts at assessing the risks facing your specific business and will help you understand your various coverage options.
