

Meet Taylor

Follow along as she lives life, her way.

Taylor, a recent high school grad, has opened a **MyChequing** account to manage the money she makes working at the pet store.

Taylor is living at home while going to school. She sets up a monthly **Interac eTransfer®** to pay rent to her mom. She's budgeting to move out on her own soon.

After starting a job as a full-time veterinary assistant she opens a **Tax Free Savings Account (TFSA)** to save up for a trip to Europe.

Taylor enrolls in veterinary school. She pays tuition with her savings and gets a **low-interest line of credit** to help pay her way.

While earning money as a veterinarian Taylor, now a newlywed, starts an **Registered Retirement Savings Plan** to save for retirement.

When Taylor and her husband purchase their first home they choose **theWorks** mortgage. They'll use the personal loan feature to complete home renovations.

To protect the real estate investment they've made for their young family Taylor and her husband purchase **MyComplete** home insurance from Interior Savings Insurance Services.

Later in her career Taylor opens her own clinic and she obtains a business loan to get started. She uses her **Choice Rewards® Mastercard®** to earn points towards her next family vacation.

Taylor has come a long way since opening her first account at **Interior Savings** and with the help of her **Interior Savings financial expert** she is well prepared for the future.

No matter where you're at in life, Interior Savings can help put you on the path to success.
